TOOLS & TECHNOLOGIES USED: Microsoft Power BI Desktop, MS Excel, MS Word, MySQL, Microsoft Power BI Service.

SUMMARY:

Our Sales Analysis Solution demonstration contains various generic reporting examples which have been popular client choices. Know which products, countries are doing most of your business, and which are not very profitable. Spot trends in locations or products and be empowered to make data driven decisions.

The solution empowers the report user to receive rapid answers to business questions that maximize sales profitability and business efficiency. Reducing stress and providing business owners and managers more time through quick analysis of key sales metrics across various dimensions is this report's value offering.
